

Main Process Plant Building Controlled Deconstruction Update

Week of October 17, 2022

Upper Warm Aisle and Equipment Removal

The Department of Energy's (DOE) West Valley Demonstration Project (WVDP) in New York continues with the controlled deconstruction of the Main Plant Process Building (MPPB). After moving to the Upper Warm Aisle, workers safely completed the removal of four pieces of staged, packaged equipment, used during past fuel reprocessing operations.

Workers remove staged, packaged equipment from Upper Warm Aisle
