

Main Process Plant Building Controlled Deconstruction Update

Week of November 14, 2022

Deconstruction - Extraction Chemical Room

The Department of Energy's (DOE) West Valley Demonstration Project (WVDP) in New York has started the deconstruction of the Extraction Chemical Room, after completing the teardown of the Upper and Lower Warm Aisles. This work is part of the controlled deconstruction of the Main Plant Process Building (MPPB). Once this work activity is completed, workers will start removing Extraction Cell 1, Extraction Cell 2, and Extraction Cell 3.
